Gym Space

Our gym space is fully equipped with multiple points of suspension and an assortment of therapy equipment to ensure safe and unique movement experiences to implement sensory integration.

Program and Team

Our occupational therapy program provides a holistic, client centered, multi-disciplinary approach to meet the needs of our clients. Our team utilizes trauma informed approaches to address concerns across all areas of development, including: social, emotional, behavioral, cognitive, and motor delays. Our practitioners use play-based techniques to address areas of concern in a fun and innovative way that invites collaboration from the client, family, and other team members. Skills evaluated and assessed:

- Gross Motor
- Fine Motor skills
- Eye-Hand Coordination
- Psychosocial Emotional Skills
- Communication/ Social Skills
- Self-Regulation
- Behavior Management
- ADLs: eating, sleeping, self-help skills, and toileting

6-Week Summer Social Skills Groups (ages 3-13)

Groups focus on building necessary skills in a focused and supported group environment. Each week offers a unique theme, which allows children to play and learn together while improving social skills. Skills worked on:

- Cooperation during play
- Sharing
- Following rules and directions
- Personal space and boundaries
- Decreasing melt downs during play interactions

Summer Social Skills program is a partnership with UNM's OT graduate school: Fieldwork I Psychosocial class. Part-time contracting for summer group sessions is separate.

Accepting Referrals

- Ages 0-18
- Insurances Accepted: Presbyterian, BCBS, Western Sky
